Please briefly present the partner organization

The Youth Association of Terceira Island (AJITER) is a non-profitable organization, created in April 2003 and based in the Terceira Island, a part of the Azores European ultraperipheral region and working for all 9 islands of the region. Its main objective is to promote the youngsters' integration and active participation in their own communities, in a short concept we define ourselves an organization that works actively to promote local development at the social, cultural and economics levels.

A lot has been during our foundation, 20 years up from now. We have had a social and community intervention in the most varied youth-related areas, ranging from citizenship education, education, and health, risk-behavior prevention, social exclusion prevention, cultural and religious tolerance, environmental education, among other things like promoting entrepreneurial culture and practices and international cooperation.

About our motivation and our social context, we can say that it is very particular because we are situated in a region composed of 9 islands located right in the middle of the Atlantic Ocean. This means that we are in a disadvantaged area, mainly if we consider that the unemployment levels are above the national medium and considering that we have a very fragile and small economy where poverty and social exclusion risks are at high level.

In order to fill this gap, AJITER has a close relationship with the two City Halls of Terceira Island, the City Hall of Praia da Vitória and the City Hall of Angra do Heroísmo. These organizations are crucial to development and support of AJITER's activities. AJITER also cooperates with the Azores Government, especially with the Education and Youth Regional Directions, with the local sports clubs, local parishes, Secondary and High schools of Terceira Island, local radio, and Television networks.

Since 2003 AJITER, has promoted a large number of youth activities, with local, regional, but also international scope, namely:

- . Youth Exchanges and Youth Workers mobility's.
- . Workshops, Training Courses, Partnership Activities.
- . European Voluntary Service.
- . National and International Conferences, Round Tables, Lectures.
- . Structured dialogue activities between youth and politicians/decision makers.
- . Seminars and congresses with youth organizations.
- . Democratic youth projects.
- . Info-sessions in local schools/libraries, promoting Erasmus+ and the European Values.

What are the activities and experience of the organization in the relevant to this application?

AJITER has a young team of 14 permanent members that represent the official board direction. Our actual number of young members are 1500. The team and volunteers of AJITER are very active and with long experience in the youth field. Some of them are graduated in Civil, Engineering, Education, Environmental, Human Resources, Law, International Relations, and Marketing. All the different backgrounds allow us to build multi-subject projects, involving the stakeholders in the focus of each project. Some of our member, volunteers, and board members work in their daily job directly in the field of non-formal education and European projects management, being project coordinators, Trainers, Facilitators, EVS Mentors and Leonardo da Vinci Traineeships Tutors.

Since 2010, AJITER coordinated and implemented some projects under the Youth in Action Program and Erasmus+:
